FB2255 Instrument - Basic Single or Group Animal Weighing

Use with: LSA Series and LMA Series livestock scales

A solid instrument for livestock applications that require only basic weight capture and printing capabilities, the FB2255 is NTEP approved and features a stainless steel NEMA 4X enclosure for reliable outdoor performance.

The FB2255 can be used with or without a printer and has an easy-to-read, back-lit, LCD display and full numeric keypad for fast, user-friendly operation. The FB2255 is powered by 115 VAC or 5 D-cell batteries.

LSA Series

LMA Series

FB500 Instrument - Intermediate Group Animal Weighing

Use with: LMA Series livestock scale

The FB500 livestock instrument comes loaded with Group Animal Weighing software that enables users to capture and track a wide spectrum of weight data including: time and date, group number, head count, weight, average weight, total group shrink, group weight, total head count and total group average.

When equipped with optional printer, the NTEP-approved FB500 transfers designated weight data to a legal-for-trade ticket. The FB500 features an internal rechargeable battery for use in applications where AC power is not available. It requires 115 VAC for operation or for internal battery recharging.

LMA Series

FB700 WeighCenter with Rate of Gain software - Advanced Single Animal Weighing

Use with: LSA Series livestock scale

The FB700 WeighCenter with Rate of Gain software is a complete advanced single animal weighing system with instrument, software and printer built into a weatherproof enclosure. Single animal Rate of Gain software tracks and prints daily **rate of gain** and **average gain** reports with two to three captured commercial weights for up to 500 animals.

The WeighCenter's FB700 Instrument has a large, backlit, graphic, LCD display and an easy-to-operate user interface. It also includes a weatherproof USB port for capturing transaction data directly to a USB flash drive for spreadsheet integration. The FB700 WeighCenter requires a 115 VDC power source for operation.

LSA Series

FB700 WeighCenter with Group Animal software - Advanced Group Animal Weighing

Use with: LMA Series and LMM Series livestock scales

The FB700 WeighCenter with Group Animal software tracks and prints advanced weighing data, such as batch, animal lot, total weight, average head count and shrink. The WeighCenter is a complete, advanced, group animal weighing system with instrument, software and printer built into a weatherproof enclosure. The WeighCenter is a standard feature of the LMM Series mobile livestock scale, and is an option on the

stationary LMA Series. The WeighCenter's FB700 Instrument has a large, graphic LCD display and easy-to-operate user interface. The WeighCenter includes a weatherproof USB port for capturing transaction data directly to a USB flash drive for use with a PC spreadsheet. A 115 VDC power source is required for operation.
