COMPLETE LIVESTOCK WEIGHING IN REMOTE LOCATIONS

The LMM is a commercially approved, self-contained, livestock scale that is easily towed by a standard vehicle to ranges and pastures where cattle or other livestock graze. The LMM is available in capacities of 15,000 lbs (single axle) and 20,000 lbs (dual axle), and accommodates 10 to 15 head of cattle per weighment. The LMM's onboard WeighCenter provides printed legal tickets and spreadsheet reports for each batch and lot of animals weighed. It enables users to track multiple data points, such as head count, total weight, average weight and shrink.

PACKED WITH GREAT FEATURES

- Rugged, all-steel construction.
- All-weather powder coat paint.
- Rubberized anti-slip deck.
- Swing gate access at both ends of the scale.
- Weighs on any firm surface, up to a 6% grade.

A layer of rubber mat is adhered to the weigh deck for safety.

EASY TRANSITION FROM TRANSPORT TO WEIGH MODE

The LMM is equipped with an air ride suspension with integral air compressor, enabling the scale system to be easily configured for towing or weighing in a matter of minutes. Simply adjust the air suspension and load cell engagement mechanism.

Transport mode

Prior to relocation, the LMM's air suspension is inflated and the load cell engagement mechanism is moved to transport mode to protect the load cells and prevent cell damage.

Weigh mode

Prior to weighing, the air suspension is deflated and the load cell engagement mechanism is moved to weigh mode.

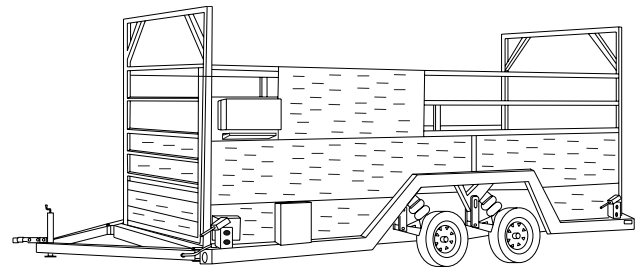

LOW PROFILE DECK EASES WEIGHING PROCESS

When in weigh mode, the LMM's weigh deck is a mere six inches off the ground, making it quick, easy and safe to load and unload animals.

SPECIFICATIONS

Capacities	15,000 lbs, 20,000 lbs
Weighbridge construction . . .	Steel, covered with rubber anti-slip mat
Deck profile	6" in weigh mode
Hitch compatibility	Standard 2" ball/coupler trailer hitch
Finish	Beige, powder coat paint
Load cell	Nickel-plated S-Beam, four per scale
Minimum graduation	5 lbs
Overload protection	150% of capacity
Operating temperature	14° F to 104° F, -10° C to +40° C
WeighCenter	
Instrument	FB700 with Group Animal Weighing software
Printer	TM-U295
Battery	12-Volt battery pack (recharged by tow vehicle)
Shipping weight	3,480 lbs to 4,730 lbs
Options	Towing light kit, Water trap kit
Approvals	NTEP CC# 19-095

DIMENSIONS

Deck	13' x 8' (15K lb model)
	18' x 8' (20K lb model)
Mobile base frame	18' 8" x 8' 6" (15K lb model)
	24' 5" x 8' 6" (20K lb model)

LMM WEIGHCENTER

The LMM system includes a scale instrument and printer, housed inside a weatherproof enclosure that's conveniently mounted to the exterior of the cage for easy operator access.

WeighCenter mounts on the LMM cage and is powered by an onboard rechargeable battery.
