SCT-1100SIGNAL CONDITIONING TRANSMITTERS

Total Control in a Compact Package

The ideal solution for PLC systems which require weight data from a scale, Rice Lake's SCT signal transmitters offer maximum control without the additional cost or space required of a traditional weight indicator.

These multi-function transmitters have a compact design while presenting the same signal-conditioning functions.

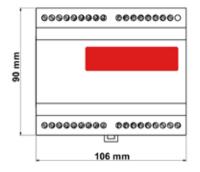

Utilized as an independent or dependent four-channel digital junction box, the SCT-1100 allows for the direct reading and diagnosis of each individual connected load cell or summed as a whole.

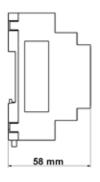

The ability to be DIN rail-mounted within a cabinet or control panel, permits a straightforward implementation into new and existing systems.

Integration is also made simple with a wide range of available fieldbus communications, as well as optional Bluetooth*, Wi-Fi and radio interfaces for external management.

Standard Features

- · Quick menu for real and theoretical calibration
- Red LED display (13 mm) and six LEDs to showing active functions
- Standard DIN rail-mounting with power supply and enclosures
- Configurable calibration and setup parameters from keyboard
- Up to three calibration linearization points or three from the keyboard
- Reading of the net, gross and tare weights, clearing, semi-automatic and presettable tare, scale switch, setting of outputs application thresholds
- Diagnostic information via serial port, message display, printing, setting
 of APW in counting mode, simulation of key pressure, Modbus RTU

Specifications

A/D Sample rate: Four channel A/D 24-bit sigma-delta conversion,

up to 200 conv. /sec. auto select

Resolution: Internal Resolution: 1.5 million counts
Weight Display Resolution: 800,000 minimum

System Linearity: ± 0.01% full scale

Digital Inputs/

Outputs: Two inputs: 12/24 VDC

Two outputs:150 mA 48 VAC/ 150 mA 60 VDC

Display: Six-digit (13 mm), red LED

Annunciators: Net, center of zero, stability

Keypad: Membrane panel, tactile feel Zero (Down), Tare (Up), Mode (Right),

Print (Enter), C (On/Off)

Temperature & Humidity: Operating Temperature: -4°F to 140°F (-20°C to 60°C)

Humidity: 85% non-condensing

Dimensions (W x H x D): 4.17 in x 3.54 in x 2.28 in

(106 mm x 90 mm x 58 mm)

Rating/Material: NEMA Type 1, plastic enclosure
Warranty: One-year limited warranty
