

YUKON®

EXTREME-DUTY TRUCK SCALE

YUKON®

LARGER-THAN-LIFE OFFROAD VEHICLE WEIGHING

- Massive 150-Ton Capacity | High 70-Ton CLC
- Available in Impervious Hydraulic or Electronic
- Durable Baked-on, Anti-Corrosion Powder Paint

If you're in the business of moving mountains one truckload at a time, then Cardinal's extreme-duty YUKON® is your truck scale of choice. Designed and built specifically for the mining industry and offroad vehicle weighing, the NTEP legal-for-trade YUKON® features an amazingly-high, 70-ton concentrated load capacity with extra-thick, heavy-duty steel deck plate. Featuring extra-wide concrete or steel decks, the YUKON® employs Cardinal's compression-type, environmentally-sealed (IP68) stainless steel load cells built in the company's state-of-the-art load cell manufacturing facility in Webb City, MO.

The **SCALE** for **MOVING** **MOUNTAINS**

Cardinal Scale offers the widest range of truck scale technology available from one scale manufacturer: portable axle, weigh-in-motion, self-contained, electro-mechanical, electronic, and hydraulic.

REMOTE DISPLAYS

Cardinal's SB500 displays giant 5-inch-high digits for long range visibility. Features Stop/Go - Red/Green lights for traffic coordination.

UNATTENDED OPERATIONS

Lower operating costs by incorporating Cardinal's unmanned vehicle weight management to your truck scale operation. Available with barcode badge reader or proximity badge reader, and/or ticket printer.

PERIPHERAL EQUIPMENT

Cardinal offers a selection of optional accessories, including side rails, weight indicators, remote displays, printers, and vehicle weight management software to complete your YUKON® truck scale operation.

EXTRA-THICK DECK

Cardinal's YUKON® features heavy-duty extra-thick steel deck plate. Optional 8-inch concrete decks are also available.

Cardinal

LONG-LASTING PAINT FINISH

The durable baked-on, anti-corrosion powder paint provides a long-lasting quality truck scale appearance for unmatched environmental protection.

SUPERIOR STEEL STRENGTH FOR HEAVY-DUTY LOADS

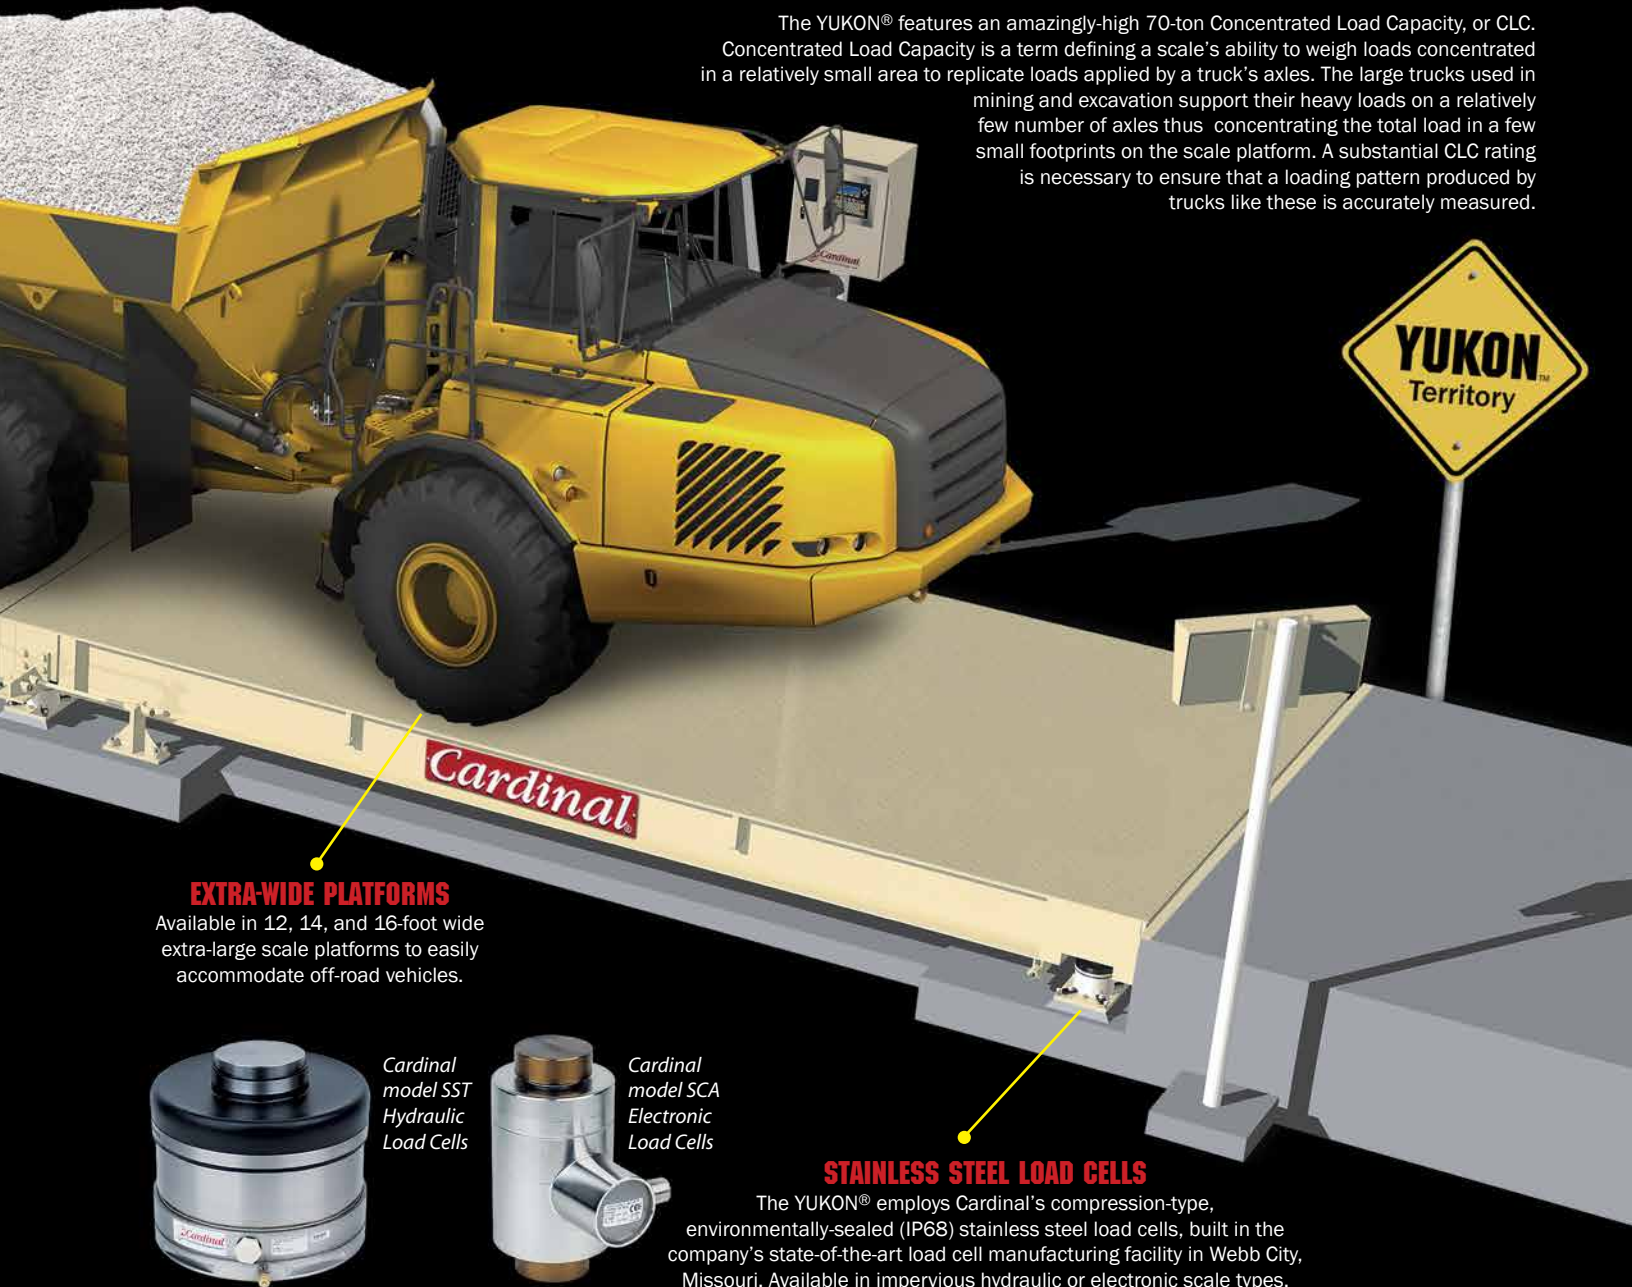

**LARGER-THAN-LIFE

LEGAL FOR TRADE

EXTREMELY-HIGH CONCENTRATED LOAD CAPACITY

The YUKON® features an amazingly-high 70-ton Concentrated Load Capacity, or CLC. Concentrated Load Capacity is a term defining a scale's ability to weigh loads concentrated in a relatively small area to replicate loads applied by a truck's axles. The large trucks used in mining and excavation support their heavy loads on a relatively few number of axles thus concentrating the total load in a few small footprints on the scale platform. A substantial CLC rating is necessary to ensure that a loading pattern produced by trucks like these is accurately measured.

EXTRA-WIDE PLATFORMS

Available in 12, 14, and 16-foot wide extra-large scale platforms to easily accommodate off-road vehicles.
